RE: Docket No 98N-1038

1729 '99 JUL 19 A11:57

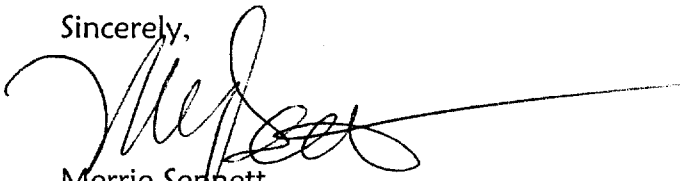

To Whom It May Concern:

My family and friends do not want to eat irradiated food (radiation destroys some vitamins and may cause unknown chemical changes). If foods have been irradiated we want to see clear labeling that this is the case.

Please maintain the present labeling requirements. We have a right to know what is in our food and how it is processed!

Thank you in advance for your attention to this matter.

Sincerely,
